

STATUS OF ANGLO-EGYPTIAN NEGOTIATIONS

I. Current Situation:

A. After nine months deadlock Anglo-Egyptian Suez talks reopened "informally" 10-11 July. New UK proposals include provision for maintenance of base by civilian technicians and reduced facilities.

B. Latest Egyptian position:

1. On duration of agreement--insist 7 years from signature. British seek 20-30 years; would accept 10-12 years availability.
2. Availability--tied to duration. Egypt refuses make base available in event attack on Iran. This apparently not major issue with British.
3. Evacuation all British troops--demand completed 15 months; British ask 24; may compromise.
